

# MOH. KIFLY DANIL MUSTOFA

## PROFIL

I'm a four-year Agribusiness student at Politeknik Negeri Banyuwangi. I am interested in agricultural production and business, and want to develop my knowledge and skills in the field of Agribusiness. Currently, I am focusing on rice and corn production and looking for opportunities to develop the processing of these crops. Outside of my daily activities, I also have a pretty interesting hobby, which is developing websites with coding such as portfolio websites, company profiles and agricultural blogs.
